## **Thank You For Trusting Griffonia! Here's More Information...**

Morning Tim!

Thank you for giving Griffonia a try!

No matter what you're dealing with... Tragic personal events... Heartbreak... Toxic people... Or just the negativity of modern society...

Griffonia will protect you and boost your well-being.

This email contains common Questions & Answers regarding daily dose, side effects, toxicity, and other precautions... So you can use Griffonia with no worries!

### **Questions & Answers**

*How do I consume it?*

Take Griffonia in lip-smackingly delicious citrus-flavored chewables. Before bed. Preferably on empty stomach.

*What about side effects?*

Have a sensitive belly? You might feel slight nausea in the first 7-10 days. If so then take Griffonia after dinner or lunch.

*I am taking some other medicine. Should I be worried?*

Only if that medicine regulates your serotonin levels — like anti-depressants.

In that case, talk to your doctor before use.

*Doctor? Is Griffonia toxic?!*

Not at all!

There is no report of overdose or poisoning regarding Griffonia.

Though lab animals experience fast heart rate, tremors, agitation and diarrhea when taken 20-40 times the recommended dose.

Still...

Don't overstep the recommended dose of 1 chewable per day!

*How do I stop taking it? Will I experience withdrawals?*

None.

After dealing with tough emotions and conflicts in your life, simply stop taking Griffonia...

Or continue! If you like the protective effects it offers :-)
